
Covid-19 Update: What our office is doing

To do our part in combating COVID-19, we have made a few changes at the office. We started by taking chairs out of the reception area allowing room for Social Distancing. The Keurig machine and magazines have been removed from the reception area as well to limit contact transfer. We are taking the temperatures of all patients upon arrival and patients are being asked to fill out an update that includes COVID-19 screening questions.

We are continuously working to ensure that the office is sanitized. This includes using a UV light in the operatories that cleans even the air. Our team may look a little different also. We have added a few layers to our PPE (personal protective equipment) but don't worry, our friendly faces are under there - somewhere, :)! With these added layers, our team is pretty HOT! You may want to add a few layers of your own when coming to the office due to the lowered AC temperature.

Elite Care Value Program

Calling all members of the **Membership Program**...we need you to spread the word! If you have friends or family that are tired of paying high insurance premiums, or have no insurance at all, and want a great dental team - send them our way! We welcome new patients and word of mouth is the BEST compliment!

We also have a terrific **Friends & Family Referral Program**! It's simple - refer a friend or family member and each of you will receive a \$50.00 credit on future dental treatment after the initial appointment.

If you are happy with the service you receive, tell everyone you know!
